

The following important points should be noted by issuer companies and their RTA at the time of generating their EVSN:

1. **Kindly note that all new e-Voting instances will have to be registered on www.evotingindia.com.**
2. Companies should ensure that the total shareholding (number of shares) are mentioned correctly. RTAs should ensure that the start date and time, end date and time are mentioned correctly for a given EVSN.
3. RTA can make modifications to the EVSN details upto the voting commencement time.
4. The PAN number should be of 10 characters only and is a mandatory field. Any value below or greater than 10 characters will be rejected by the system.
5. In case of records not having PAN number in the ROM file, a PAN value using the first two characters of the first name field excluding any special characters and the remaining eight digits from the Sequence Number in the ROM file would have to be provided in the ROM file. The sequence number should be generated by the RTA. If the sequence number is less than eight digits the remaining digits should be padded with the relevant number of 0 (Zero) from the left.
6. The sequence number should be communicated, in the notice, to those shareholders whose PAN number is not available and has been provided by the company in the ROM file.
7. Adequate precaution should be taken to ensure that the correct sub-status has been recorded for each member id / folio number for demat and physical shareholders.
8. Incase Date of Birth (DOB) and Dividend Bank Details field is left blank in the ROM file, CDSL will populate the Folio Number / demat account number in the Dividend Bank Details field. The same should be communicated in the notice to the shareholders.
9. Companies are advised to activate the EVSN prior to the voting commencement date.

We wish to highlight a few benefits of the system:

1. Companies can directly activate the EVSN without requiring to furnish any EVSN Activation Letter.
2. Passwords can be self generated by the Demat Shareholders of the Company.
3. Corporate shareholders can vote on multiple accounts through a single login.
4. Requirement of quoting the EVSN number in the notice is done away with.
5. After execution of the Finalise Voting option by the Scrutinizer, the company would be able to view the final voting report in their login.
6. RTA has to upload one ROM as of the cut-off date only, instead of two ROMs.
